

Interest Rate Display on MO Quotes

August 2025

- A new feature has been added to HST that shows interest rates on the CNCA page that can be attached to MO Quotes
- To add the CNCA page to a MO Quote, select an option from the Finance tab of a quote in HST
- Then select the CNCA output on the Output Selection

The screenshot illustrates the process of selecting a CNCA output for a quote. On the left, the 'Finance' tab is active, showing two options: 'CNCA 20% Down No Skip' (selected) and 'CNCA 25% Down No Skip'. The '20% Down Payment (\$13,399.00)' is selected, and the '60 Months Payment (\$987.24) 30 Skip' option is highlighted with a red box. A red arrow points from this selection to the 'Output Selection' screen on the right. In the 'Output Selection' screen, the 'CNC Associates Financing Program Output' option is checked and highlighted with a red box. Other options listed include 'US Mill Tooling & Workholding KIT Focus', 'Winners Circle Flyer', 'Discovering Lathe Automation', 'Discovering Mill Automation', 'Laser Marker Product Overview', 'Air Compressor Product Overview', 'CMM Product Overview', 'HAB-3232 Product Overview', 'HKM-1 Product Overview', 'HSG-2550 Product Overview', and 'CNCA Financing Offers'.

- Save your quote and then generate a quote PDF
- Interest rates for the selected financing option will be displayed on the CNCA page along with a new disclaimer that aligns with the disclaimer on HaasCNC.com
